We've continued to deep dive into the AI aspect of our research. We've acquired another person to interview to add to our primary research. That will help us deepen our knowledge about AI's. We've finally secured the HoloLens and a locker to put it in, which is located in the senior design lab.

Pending Issues

- * Continue scheduling and conducting our primary research
- * Find out what exactly we can do with our budget. Which will require reaching out to Dr. Zambreno
- * Continue deeper research

Plans for Upcoming Reporting Period

We need to deep dive into the AI aspect of our research. We are bouncing back and forth between discover and define phases of the double diamond stage.
